ST. JOHN'S
UNIVERSITY

A MESSAGE FROM OUR HEAD OF MEDICAL AFFAIRS

"The American Regent Medical Affairs Fellowship offers PharmD graduates a unique opportunity to develop the scientific expertise, strategic mindset, and business acumen needed for a successful career in the pharmaceutical industry.

Fellows contribute to initiatives spanning the product lifecycle, collaborate with cross-functional teams, and gain exposure to key Medical Affairs functions, including the Medical Science Liaison (MSL) team, Scientific Communications, Medical Information, Medical Education, and Educational Grants.

Through meaningful project ownership, executive mentorship, and broad organizational exposure, fellows develop a strong foundation for success across a wide range of roles within the pharmaceutical industry."

Hina Japes, PharmD
Head of Medical Affairs

ABOUT AMERICAN REGENT

About American Regent:

American Regent has a long history in the pharmaceutical community. Since the launch of our company under the name American Quinine in 1967 to our recent product launches of Tralement® (2020), Multrys® (2021), and an expanded indication for Injectafer® for patients with heart failure (2023), American Regent keeps the health of patients as our guiding principle.

American Regent is a leading manufacturer of high quality generic and branded specialty injectables. We maintain a robust and diversified pipeline for future growth encompassing multiple disease indications, along with a proven record of fast-tracking both NDAs and ANDAs with innovative regulatory strategies. American Regent remains in an excellent position for future growth because of our capabilities in the area of pharmaceutical product development. Our development capabilities include hormones, controlled substances, cytotoxic molecules, imaging products, antibiotics, nutritional products, and complex generics (peptides, microspheres, lipid based nano-carriers drug delivery systems).

The American Regent team is committed to providing the ever-changing healthcare marketplace with a growing and diversified portfolio of branded and generic specialty injectable products for healthcare providers and their patients.

Reliability	Speed	Flexibility	Quality
Between all three of our US manufacturing sites, we have the capability to manufacture over 70 million units annually	Developing excellence in speed is a critical focus for American Regent, because we believe patients should never have to wait for the medications they need	American Regent, with its US-based manufacturing and short delivery timelines, has flexibility in production scheduling—ensuring rapid responses to changes in market demand	When it comes to quality, our organization focuses on prevention rather than remediation

Currently Supported Products

Venofer®
iron sucrose injection, USP

injectafer®
ferric carboxymaltose injection

Tralement®
(trace elements injection 4*, USP)
*Each mL contains zinc 3 mg, copper 0.3 mg, manganese 55 mcg, and selenium 60 mcg.

Multrys®
(trace elements injection 4*, USP)
*Each mL contains zinc 1,000 mcg, copper 60 mcg, manganese 3 mcg, and selenium 6 mcg.

Paclitaxel Protein-Bound Particles for Injectable Suspension (Albumin-Bound)

Injectafer®, the Injectafer® logo, Venofer®, and the Venofer® logo are trademarks of Vifor (International), Inc., Switzerland. Tralement® and Multrys® are registered trademarks of American Regent, Inc.

American Regent Timeline

*ProvayBlue® is a registered trademark of Provepharm Life Solutions, France.

American Regent Locations

MEDICAL AFFAIRS

Pharmacists in the Medical Affairs Department provide efficient and unbiased medical information concerning the company’s pharmaceutical products to healthcare professionals, consumers, and internal associates.

Currently recruiting one fellow for 2027-2029

1 st Year Core Rotations			
Medical Information	Publications / Scientific Communications	Promotional Material Review	Medical Science Liaison (MSL)

Medical Affairs Overview:

- Develop and utilize strong clinical trial analysis skills to evaluate medical literature, interpret scientific data, and support healthcare professionals and consumers
- Create and present educational lectures on products and disease states to internal and external stakeholders
- Attend medical/scientific meetings to ensure an in-depth understanding of the latest advances and updated scientific information that will help shape our publication and Investigator Sponsored Study strategies
- Work with the Medical Affairs team including, but not limited to: Medical Communications Leads, Medical Science Liaisons, Medical Directors, Medical Writers, and other relevant team members on the development and approval of core clinical material
- Manage company expectations while effectively integrating key clinical messages for dissemination to a wide array of audiences
- Acquire the medical expertise and experience to thrive in the pharmaceutical industry while complying with FDA and PhRMA regulations

Medical Science Liaison (MSL) Overview:

- Establish and maintain working relationships with healthcare professionals
- Provide education by creating scientific dialogue around American Regent products and sponsored research
- Shadow the MSL team and attend relevant conferences to deepen their understanding of Medical Affairs in a professional, pharmaceutical industry setting

Fellows will be required to execute a confidentiality agreement with American Regent.

FELLOWSHIP ELECTIVE ROTATIONS

The second-year fellow will have the option to rotate through a variety of functional areas to foster professional growth and to identify areas of interest.*

Second Year Rotations:

*Rotation availability is subject to change.

Clinical Research and Development:

- Learn the operational aspects of clinical trial designs from initiation, execution, and study completion
- Work with Clinical Operations to manage and update study time lines and budgets, and participate in the processes of ongoing data review, analysis, and reporting while understanding the roles and responsibilities of clinical team members
- Understand the lifecycle of clinical trials, identify study milestones, and develop study timelines that align with the clinical development plan
- Utilize clinical research skills inclusive of systematic literature reviews, oral and written communication skills, and the preparation of abstracts, articles in scientific journals, and study training materials for internal and external stakeholders

Regulatory Affairs:

- Gain an understanding of the regulations, guidelines, standard practices, and roles of Regulatory Strategy in the development of products for commercialization
- Provide strategic input to support the development, filing, and regulatory approval of new drug products
- Participate in planning and preparing for interactions with Regulatory Health Authorities, and generate responses to inquiries
- Contribute to drafting regulatory documents and participate in filing and maintaining Investigational New Drugs (INDs) and New Drug Applications (NDAs)

Safety/Pharmacovigilance (PV):

- Develop an understanding of pharmacovigilance processes within the Argus Safety Database
- Prepare and review aggregate reports under the supervision of the PV Department
- Participate in surveillance and signal detection for company products in a variety of different therapeutic areas
- Establish knowledge of MedDRA coding and applicable regulatory requirements

Commercial & Marketing:

- Provide input into commercial strategy, messaging, and tactical development
- Translate pertinent clinical study results into marketing and educational tools
- Train sales personnel on clinical subject matter
- Develop the required skills to synthesize information, generate insights, formulate solutions, and present findings to internal and external stakeholders

PROGRAM LEADERSHIP

“The American Regent Pharmacy Fellowship Program provides an exceptional opportunity for pharmacy professionals to gain broad, hands-on experience in Medical Affairs early in their careers. As Director of Medical Affairs, I have the privilege of supporting our fellows as they rotate through several Medical Affairs functions, gaining exposure to the diverse roles and opportunities within the field. I especially value the program’s two-way learning experience: while fellows develop the knowledge and skills needed to build successful careers in Medical Affairs, they also bring fresh perspectives, emerging scientific knowledge, and new ideas that strengthen and challenge our team. It is incredibly rewarding to watch our fellows grow into confident Medical Affairs professionals and become valued contributors to our organization.”

Kaitlin Dehlin, PhD, RD
Director, Medical Affairs

“The American Regent Medical Affairs Fellowship is geared for highly motivated individuals seeking to enhance their careers and obtain pharmaceutical industry experience. This two-year program provides a unique opportunity for fellows to develop key skills in Medical Affairs while offering flexibility to explore additional functional areas based on personal interest. The fellows become an integral part of the American Regent team and will gain experience in understanding strategy implementation to support scientific and commercial goals. This fellowship program will provide direct mentorship to foster professional growth and development as well as essential experiences for a successful career in the pharmaceutical industry.”

Kelly Mahoney, PharmD, RPh
Senior Manager, Medical Affairs
Fellowship Program Director, Medical Information Preceptor

“It is an honor and pleasure serving as Program Coordinator for this wonderful post-doctoral fellowship opportunity offered through St. John’s University and American Regent. Fellows completing this exceptional two-year program are highly marketable and stand to secure cutting-edge positions within the pharmaceutical industry primarily due to the mentorship, professional project opportunities, research experience, and exposure to multiple cross-functional areas within American Regent.”

William M. Maidhof, PharmD
Associate Professor/Industry Professional
Fellowship Coordinator – St. John’s University and American Regent, Inc.

“For over 15 years St. John’s University, College of Pharmacy and Health Sciences, has partnered with American Regent to provide Doctor of Pharmacy graduates with structured postgraduate education fellowships that develop leadership, practice, research, and teaching skills to succeed in the industry today and in the future. The University is proud of its longstanding affiliation with American Regent and the success of our past and current fellows.”

Joseph M. Brocovich, PharmD
Program Director, Pharmaceutical Industry Fellowships
College of Pharmacy and Health Sciences
Associate Clinical Professor - St. John’s University

CURRENT FELLOWS

“The American Regent–St. John’s University Medical Affairs Fellowship offers a unique opportunity for fellows to develop a well-rounded understanding of Medical Affairs while gaining exposure to cross-functional teams that support their long-term career aspirations. As a mid-sized pharmaceutical company, American Regent provides fellows with meaningful responsibilities, direct access to leadership, and the flexibility to contribute to impactful projects that drive both personal and organizational success. Throughout the program, experienced mentors are committed to guiding fellows as they build scientific expertise, leadership skills, and professional confidence.

The partnership with St. John’s University further enhances the fellowship experience by integrating academic and professional development through teaching opportunities, research initiatives, and graduate coursework. Fellows benefit from a collaborative and supportive environment where faculty, alumni, and industry leaders are invested in their growth. Together, American Regent and St. John’s University provide a strong foundation for launching a successful and fulfilling career in the pharmaceutical industry”

Nicole Conciardo, PharmD, RPh
Medical Affairs
Second-year Fellow
St. John Fisher University Wegmans College of Pharmacy

“The American Regent and St. John’s University Medical Affairs Fellowship offers an immersive experience designed to develop future leaders within the pharmaceutical industry. What initially drew me to the program was its welcoming and supportive environment, as well as the opportunity to rotate through multiple areas of Medical Affairs and gain a comprehensive understanding of the diverse functions that contribute to patient care and scientific exchange. The program provides meaningful exposure to cross-functional teams, allowing fellows to learn from experienced professionals while developing the skills necessary for a successful career in the pharmaceutical industry.

In partnership with St. John’s University, the program combines real-world industry experience with academic enrichment through graduate coursework, research opportunities, and mentorship. Supported by dedicated colleagues, faculty, and fellowship alumni, fellows are empowered to expand their knowledge, strengthen their professional network, and build a strong foundation for a rewarding career in Medical Affairs.”

Isabella Iacovino, PharmD
Medical Affairs
First-year Fellow
University of Rhode Island College of Pharmacy

The American Regent fellowship recruits yearly for Medical Affairs. Fellowships are remote with professional development days located on the St. John’s University campus in Queens, NY.

Global Senior Clinical Scientist, CSL Behring, 2019-2023
Clinical Research & Development Fellow, 2017-19

St. John's University College of Pharmacy and Health Sciences provides undergraduate, graduate, and post-doctoral programs focused on global impact, which cultivates the tools necessary to find solutions to complicated healthcare issues. Located in Queens, NY, St. John's commitment to excellence and renowned faculty inspire students to practice patient-centered care and shape the future of healthcare.

The St. John's University College of Pharmacy and Health Sciences Pharmaceutical Industry Fellowship Programs were developed to provide Doctor of Pharmacy degree graduates with a profound and unique learning experience leading to attainment of a competitive position in the pharmaceutical industry, upon culmination of the two-year program. In addition to the exceptional training and hands-on experience offered at each industry site from program directors and preceptors, fellows are provided with unique academic and scholarship opportunities through St. John's University under the mentorship of faculty within the Department of Pharmacy Practice.

Primary fellowship goals and objectives are:

- Gain specialized training within the pharmaceutical Industry
- Develop communication skills
- Develop leadership skills
- Develop teaching skills
- Enhance professional growth and development
- Develop research skills

Learn more at: <https://www.stjohns.edu>

Fellows at St. John's:

The fellow will be a full time St. John's University employee. A competitive stipend will be provided, as well as options for comprehensive health, dental, and vision insurance.

Each fellow is responsible for completing a semester-long teaching requirement at the university and an additional fellowship research project that may include original research, or the development, enhancement, or evaluation of some aspect of operations or patient care services.

Upon Fellowship Completion:

Additional Fellowship Opportunities:

- The fellow may participate in a Teaching Excellence Certificate Program
- Precept Advanced Pharmacy Practice Experience (APPE) candidates (if applicable)
- Perform collaborative research with St. John's faculty (if applicable)
- Enroll with tuition remittance for Graduate Degree programs (Master's or PhD degrees) (if applicable)

APPLY NOW

Eligibility:

Potential applicants for the St. John's University/American Regent fellowship programs must meet the following criteria:

- Graduate from an Accreditation Council for Pharmacy Education (ACPE) accredited Doctor of Pharmacy Program
- Genuine interest in the pharmaceutical industry
- Eligible to work in the United States

How to Apply:

Please electronically send all required items and correspondence to:

stjfellowships@stjohns.edu

Required items:

Deadlines:

Curriculum Vitae	October 23, 2026
Letter of Intent	October 23, 2026
College Transcript *does not have to include the fall semester grades	October 27, 2026
Three Letters of Recommendation	October 27, 2026

Schedule an Interview:

Virtual interviews will be provided upon submission of a Letter of Intent and CV beginning early November.

Note: The American Regent fellowship recruits yearly for Medical Affairs. Fellowships are remote with development days organized by St. John's University.

Questions:

Please contact stjfellowships@stjohns.edu for any and all questions regarding the fellowship program or application process.

Alliance of Industry Fellowship Associates Fellowship Offers

Please see the statement below from AIFA, whose Member Fellowship Programs collectively offer the majority of available fellowship positions.

The choice of a Post-Doctoral Industry Fellowship is an important decision. AIFA exists to promote a consensus first offer date for all Fellowship positions. We believe this is a positive reflection of the cultures our Programs offer, and that culture is a critical consideration in choice of Fellowship.

We hope that other academic and non-academic Fellowship Programs will NOT pressure candidates to accept offers prior to this AIFA-aligned offer date. Candidates should feel free to request an extension for any earlier offer to allow them to consider their options.

AIFA-aligned first offer date: December 11, 2026.
